Dear Parent/Carer

Introducing the SIMS "Parent App"

St. Olave's will share important information with you about your child's school life and progress via the **SIMS Parent App**, which offers convenient access via a smartphone, tablet or PC. The Parent App 'piggybacks' off an existing federated (third-party account) login, such as Microsoft/Google/Office 365, Twitter/Facebook, therefore no additional password is required to access the App once the registration process is complete.

You DO NOT need to take any action TODAY. Information about the registration process and using the Parent App will be circulated together with your unique sign up codes, **during the next few weeks.**

Information published via the App includes your child's:

- Interim reports, predicted & challenge grades etc,
- Conduct
- Achievements (Commendations etc.)
- Term Dates and events
- Student timetables
- Personalised reminders of forthcoming events specific to your child/child's year group.

The Parent App also allows parents/carers who live at the same address as pupils, to conveniently submit updates to their contact details and student information to ensure the school has the most up-to-date information in case of emergency. (If you have more than one child at school, information for each, will be available via the same login.)

During the next few weeks, the school will arrange for all parents/carers to receive a unique one-off registration code to sign up to the Parent App.

When this arrives, it is vital all parents/carers accept the invite and sign up please, to ensure they can access information published exclusively via the Parent App, such as Interim Reports.

In the meantime, I trust your child has enjoyed their first few days of Autumn Term at St Olave's.

Yours sincerely
C. Slyfield (Mrs)
