

DJB/AB 20 April 2021

Dear Pupils, Parents and Carers

In accordance with guidance from Ofqual, the DfE and JCQ, the school has produced a policy relating to Summer Qualifications for 2021. The policy document is attached in full for your reference. It will be published on the school's website and will be formally shared with JCQ for their quality assurance purposes; the policy is firmly rooted in the best practice guidance shared by JCQ and has been reviewed and refined with the support of the Governing Body. It explains in broad terms the school's stance and commitments to all aspects of the process, including use of appropriate evidence, determination of teacher assessed grades, quality assurance and appeals.

In accordance with my previous correspondence regarding teacher assessments, the school will also share with pupils and parents a summary of the evidence base to be used for each qualification, and will give everyone the opportunity to share relevant information relating to special considerations and mitigating circumstances. We will also send further guidance regarding results and appeals later in the term.

Yours sincerely

Mr D J Budds
Deputy Headteacher
