

04 February 2021

Dear Parents/Carers/Students,

Thank you for joining me yesterday for the GCSE Options webinar, I hope you found it informative. You can find more information on the school website via this [link](#) and please do read the information in the GCSE Options Booklet. I will collate a summary of questions and answers including questions which I didn't get time to answer into a document which will also be posted on the school website. The next Year 8 PSHE lesson will be dedicated to GCSE options choices and will provide more guidance and opportunities for students to ask questions.

Year 8 students should be in receipt of an email from noreply@sims.co.uk which will then permit registration. A pdf guide on how to register and complete the options choices has accompanied this correspondence and a copy can be found on the website. GCSE choices can be amended until midday on Monday 8 March at which time the portal will close. After this date and upon construction of the timetable and the setting of option blocks it may not be possible to accommodate changes. So please take time to carefully make choices.

I would like to emphasise that I anticipate meeting the majority of preferences and will inform you in due course.

Yours faithfully,

Dr. Sidhu

Assistant Headteacher
