

04 January 2021

Dear Parent/Carer

Covid-19 Testing

We are excited to inform you that planning has taken place for COVID-19 Lateral testing within school and we intend to begin the testing of students on Wednesday 6th January. Students will swab themselves. Staff will be available to provide advice if required. Instructions will be given on how to carry the test out. Staff will be available provide advice if required. Students will leave school or go to lessons (if they are in Year 13) or sit their Mock exams (if they are in Year 11) once the test has been done and post January 11th when students in these year groups return to school. Students in Years 11-13 in this week need to wear school uniform but that will not be required if your child is only attending school for the Lateral Flow test.

Please note if you have not given permission for your child to be tested they must not come into school for the test.

When your child arrives at school for the test they should go to their form room where they will be collected and taken to the designated test site. It is important they arrive on time and sit in their usual seats for registration.

You should assume the test is negative unless you hear otherwise. If it is a positive test your child will be asked to go to a test centre for a further test. He or she will need to self-isolate. Further information will be given at this time.

Please be aware until we have been through this system a few times, the times allocated may change. If this is the case I will write again.
