

## CAREERS NEWS

---

For students in Years 12 and 13, Imperial College, London, has made available a video showing 'A day in the life of a researcher'. Dr Alicia Heath is research fellow in cancer epidemiology at Imperial. She has carried out extensive research into vitamin D and its advantages and disadvantages for many health conditions. To see the video use the link: <https://www.youtube.com/watch?v=BfRb8JwGEo>

---

The  
University  
Of  
Sheffield.

Also for Year 12 students, the University of Sheffield is running taster sessions throughout June and July. The diverse range of subjects included covers biosciences, engineering, politics and international relations, music, literature, east Asian studies, philosophy and history. <https://www.sheffield.ac.uk/undergraduate/visit/taster-days>

---

Queen Mary, University of London, is running a variety of events over the summer. The hands on 'Discover Chemistry' events on 18 and 20 June may appeal to younger students as they are open to all ages and take place at the University's Mile End campus. During bookable one-hour slots, participants will experience life in a working research laboratory as well as interacting with staff and current students. To book: <https://www.eventbrite.com/e/discover-chemistry-tickets-153957857095>

---

The subject taster session, 'Women in Engineering' on 23 June is led by the Head of School, Professor Hazel Screen, who will be supported by academics, alumni and students presenting and answering audience questions especially about life as a woman in the profession: <https://www.qmul.ac.uk/undergraduate/future-students-hub/subject-specific-sessions/>

---

Undergraduate Summer Events are also on offer on 25-26 June and 1-3 July. These may be virtual or live depending on government regulations and will provide opportunities for chatting with staff and students and touring the campus. <https://www.qmul.ac.uk/undergraduate/openday/>

---

The organisation, Speakers for Schools, has launched its new programme of virtual work experience. It is already well established in working with employers and leading employees who inspire students with a programme of weekly talks. For the work experience details, interested students can register themselves using their school email address. Once activated, they will then be able to search for opportunities suited to their profile: <https://www.speakersforschools.org/experience-2/vwex/>

Gaining an insight into the world of property may seem quite a challenge as a student. This summer, Henley Business School at the University of Reading is supporting the Pathways to Property virtual Summer School. This is a free charity programme designed to raise students' awareness of careers in property. The three day school on 19 to 21 July will give participants a taste of university life, insight into the property sector and information about the opportunities available and the differing routes into the profession. To find out more use the link: <https://www.henley.ac.uk/research/academic-areas/real-estate-and-planning/rref/pathways-to-property/summer-school>

Financial services company, Rothschild & Co, is running its 2021 Global Advisory Apprenticeship in London. This lasts for four years during which time the successful candidate will work in a variety of roles as well as study towards professional qualifications. A university undergraduate degree in Finance is the academic qualification the apprentice can achieve. Study leave and support is provided throughout the apprenticeship. This is a challenging experience but rewarding too in providing the prospect of a career within the sector: <https://rothschildandco.tal.net/vx/appcentre-ext>
